

## **Carbon Market Data and ZE PowerGroup Inc.® Sign Data Licensing Agreement**

London, England/Vancouver, BC – 16 July, 2009 – Carbon Market Data, the global provider of emissions data, and ZE PowerGroup Inc., the developer of the award winning data management solution, ZEMA, announced today that they have entered into a data distribution agreement. This agreement means the energy industry will have access to Carbon Market Data’s key emissions information through the ZEMA Product Suite.

“It is always great entering into a relationship with an information provider that has type of data clients are searching for; especially data that is essential to the development of carbon markets worldwide”, commented Waleed El-Ramly COO, Product Development for ZE PowerGroup, adding that, “by combining their emissions data with the other commodity data that we collect such as power, financial, natural gas and oil prices it creates a very compelling solution for companies that are active in the energy markets”

Cédric Bleuez, Managing Director of Carbon Market Data concurred, saying “This agreement provides another avenue for people in need of emissions data to access it through systems which they are already familiar with. We plan to continue expanding our data offerings as new carbon markets are launched”

The agreement between ZE and Carbon Market Data makes it easy for clients of Carbon Market Data to take advantage of the full power of the ZEMA Suite of Products. ZEMA users will be able to easily access and aggregate the data provided by Carbon Market Data and perform analysis using ZEMA’s analytic capabilities.

### **About Carbon Market Data**

[Carbon Market Data](#) is a market data vendor and carbon market research company, which offers information, consulting and technology services to a wide range of organisations in the world. The company was founded in early 2006 and is a pioneer in the domain of carbon market data supply.
